All of the responses just have A, B, C, D or E but do not indicate what those are for. I am choosing A for all and using that to answer that the Graduate assistant was excellent in everything

Joseph was a great TA and he was always upbeat and kind and would help you if you didn't understand a topic. I loved the way he ran the discussions as it was very beneficial.

A very well-instructor, very care about students, prepared well.

Very knowledgeable but challenging TA.

I feel as though he was one of the worst TAs I have ever had at this university. He would write the quizzes and try to prepare us for them in his discussion, then he would proceed to put questions that were completely different on the quiz. I do not think that he prepared my class at all for test and quizzes and should not move forward with being a TA for classes in the future. He is partially the reason why many students in the class have barely passing if not failing grades.

Joseph was outstanding. He was super organized and presented the material in a very helpful way.
