The most helpful TA that I've ever had. He made the content very understandable, was always pleasant and I could tell that he cared about the students, our grades, our understanding of the material, and our future academic careers. I would be elated to hear that I had him as a TA or even a professor in the future, and as a side note, he and the other math TA's deserve to be paid more.

Great TA

My graduate assistant was always open to helping students and taking extra time to explain things to his students. I would go to his office hours frequently and he would always help me with my questions.

Joseph was one of my favorite TA's, would always go over what the teacher taught, would always offer help when needed, one of the main reasons I may pass this course.

Joseph was great at explaining concepts I didn't understand

NA

I think he deserves a raise for how much he cares. Best teacher I've ever had.

joseph is my favorite TA ive had yet

He pretty much taught me how to do this entire course. He was excellent at explaining topics, even more so than professor Bacuta oftentimes. He's really nice and fair. Probably the best TA I've had

Great graduate assistant

BEST TEACHER/TA I HAVE EVER HAD. PAY HIM MORE. HE IS WHY PEOPLE ARE PASSING. SO HELPFUL. always has office hours, very organized, amazing at explaining.

He was amazing!
