EDUCATION

University of Delaware Ph.D. Applied Mathematics (in progress) Advisor: Jingmei Qiu	Newark, DE <i>Expected 2023</i>
University of Delaware M.S. Applied Mathematics Advisor: Jingmei Qiu	Newark, DE <i>2018–2020</i>
Seattle University B.S. Applied Mathematics Advisors: Yen-Lin Han (Mechanical engineering) and Katie Oliveras (Mathematics)	Seattle, WA <i>2014–2018</i>

AWARDS

- Winter Research Symposium Best Poster Award, University of Delaware
Voted best poster at the annual Winter Research Symposium hosted by the University of Delaware Department of Mathematical Sciences. (\$500 award)
February 2022
- Baxter-Sloyer Graduate Teaching Award, University of Delaware
“Given to a graduate student teaching assistant, in mathematical sciences, who has demonstrated superior effectiveness in teaching, and in the performance of their responsibilities.” (\$300 award)
May 2021
- Seth Trotter Book Collecting Contest, University of Delaware
Placed first in the book collecting contest put on by the Friends of the University of Delaware Library, and entered into the National Student Book Collecting Contest. Won with my reference library of (now) roughly 400 mathematical and engineering texts. (\$1000 award)
June 2019
- Wynne Alexander Guy Award, Seattle University
“Given in grateful acknowledgment of a graduating mathematics major whose extraordinary contribution to the department always went above and beyond what was expected. Named to honor beloved teacher Mrs. Guy, who performed extraordinary service to the Mathematics department and Seattle University for 30 years.”
June 2018

PUBLICATIONS

Journals and Conference Proceedings

J. Nakao, J. Chen, and J.-M. Qiu, “An Eulerian-Lagrangian Runge-Kutta finite volume (EL-RK-FV) method for solving convection and convection-diffusion equations”, *Submitted*. ([link here](#))

J. Nakao and Y.L. Han, “Preliminary simulated results modeling a dynamic heating cancer ablation probe”, *ASME International Mechanical Engineering Congress and Exposition (IMECE) – Applications of Computational Heat Transfer*, Pittsburgh, PA, November 2018.

Articles

J. Nakao, “The Pot of Gold at the End of the Rainbow – How Mathematics Departments Can Increase LGBTQ+ Inclusivity”, *MAA Math Values Blog*, April 2021. ([link here](#))

J. Nakao, “Adventures in Book Collecting”, *The Atrium – University of Delaware’s Quarterly Newsletter*, September 2019. ([link here](#))

Open Access Handbooks and Reference Guides

J. Nakao, “The Handbook of MATH221”. ([link here](#))

J. Nakao, “A Mathematica Reference Guide (for calculus students)”. ([link here](#))

J. Nakao, “A Gentle Introduction to L^AT_EX”. ([link here](#))

J. Nakao and D. Hayes, “A MATLAB Reference Guide for Undergraduate STEM Majors”. ([link here](#))

PRESENTATIONS

Keynote Speaker

- “Navigating Graduate School as a Queer Student” (upcoming) November 2022
LGBTQ+ Math Day (virtual), Fields Institute for Research in Mathematical Sciences, Toronto, CAN

Conference or Seminar Speaker

- “A new Eulerian-Lagrangian Finite Volume (ELFV) Method for Solving Convection-Diffusion Equations and Hyperbolic Conservation Laws” March 2022
AMS Spring Central Sectional Meeting (virtual), originally hosted by Purdue University, West Lafayette, IN
- “An Eulerian-Lagrangian Finite Volume Method for Solving Nonlinear Transport Equations” July 2021
SIAM Annual Meeting (virtual), originally at Spokane, WA
- “Solving for Exact Stationary Solutions to Shallow-Water Waves” November 2017
Analysis Seminar, Department of Mathematics, Washington State University, Pullman, WA
- “Modifying an Optimal Payload Sensor Model to Detect Mobile Targets” August 2017
Summer Scholar Presentations, Air Force Research Laboratory, Albuquerque, NM

Departmental Seminar Speaker

- “A new Eulerian-Lagrangian Finite Volume (ELFV) Method for Solving Convection-Diffusion Equations and Hyperbolic Conservation Laws” December 2021
Hallenbeck Graduate Student Seminar, Department of Mathematical Sciences, University of Delaware, Newark, DE
- “An Eulerian-Lagrangian Finite Volume (ELFV) Method for Nonlinear Conservation Laws” April 2021
Hallenbeck Graduate Student Seminar, Department of Mathematical Sciences, University of Delaware, Newark, DE

POSTERS

- “An Eulerian-Lagrangian Runge-Kutta finite volume (ELRK-FV) method for solving convection-diffusion equations” February 2022
Winter Research Symposium, University of Delaware, Newark, DE
- “Modifying an Optimal Payload Sensor Model to Detect Mobile Targets” August 2017
Summer Scholar Poster Session, Air Force Research Laboratory, Albuquerque, NM
- “Reconstructing the water-wave profile from pressure measurements in a moving body of water” April 2017
AMS Sectional Meeting, Washington State University, Pullman, WA

OTHER RESEARCH EXPERIENCE

Air Force Research Laboratory

Aerospace Systems Directorate

Edwards, CA

May 2022–August 2022

Mentors: William Taitano and Alexander Alekseenko

Project: Building conservative, structure-preserving low rank tensor algorithms for solving the Vlasov-Fokker-Planck equation

Air Force Research Laboratory

Aerospace Systems Directorate

Edwards, CA

May 2021–August 2021

Mentors: Robert Martin and Alexander Alekseenko

Project: Modelling the Fokker-Planck and Vlasov-Fokker-Planck equations

Air Force Research Laboratory

Space Vehicles Directorate

Albuquerque, NM

June 2017–August 2017

Mentor: Reed Weber

Project: Modifying and implementing an optimal payload sensor model
Interim security clearance (secret)

TEACHING

University of Delaware

- **Courses Taught**

MATH 243 (calculus 3 for physical sciences and engineering with lab component) [Download evaluations here](#) Winter 2022

MATH 221 (calculus 1 for life sciences and business) [Download evaluations here](#) Winter 2021

MATH 221 (calculus 1 for life sciences and business) [Download evaluations here](#) Winter 2020

- **Teaching Assistantships**

MATH 243 (calculus 3 for physical sciences and engineering with lab component) [Download evaluations here](#) Fall 2021

MATH 243 (calculus 3 for physical sciences and engineering with lab component) [Download evaluations here](#) Fall 2020

MATH 221 (calculus 1 for life sciences and business) [Download evaluations here](#) Spring 2020

MATH 221 (calculus 1 for life sciences and business) [Download evaluations here](#) Fall 2019

MATH 241 (calculus 1 for physical sciences and engineering) [Download evaluations here](#) Spring 2019

MATH 221 (calculus 1 for life sciences and business) [Download evaluations here](#) Fall 2018

- **Other Instruction**

Independent study on techniques of applied mathematics (upcoming) Fall 2022

Graduate qualifying exam review for techniques of applied mathematics (3 out of 3 students passed) Summer 2021

Graduate qualifying exam review for techniques of applied mathematics (2 out of 2 students passed) Winter 2021

Seattle University

- **Teaching Assistantships**

MATH 2330 (multivariable calculus for physical sciences and engineering) Spring 2018

MATH 2340 (ordinary differential equations) Winter 2018

MATH 2340 (ordinary differential equations) Fall 2017

MATH 2330 (multivariable calculus for physical sciences and engineering) Spring 2017

MATH 2340 (ordinary differential equations) Winter 2017

MATH 2330 (multivariable calculus for physical sciences and engineering) Fall 2016

SERVICE AND EXTRACURRICULAR

Diversity In The Broader Mathematics Community (Positions Held)

- Spectra Board of Directors July 2021–Current
Membership Committee Chair
Spectra ([website link here](#)) is the association for LGBTQ+ mathematicians.
Responsibilities: organizing social events, overseeing visibility campaigns, and taking actions to promote membership.

Diversity In The Broader Mathematics Community (Ad Hoc)

- Spectra Reception at the Joint Mathematics Meetings (upcoming) January 2023
Organizer.
- Spectra LGBTQ+ Twitter Visibility Campaign June 2022
Co-organizer. Spectra highlighted a different LGBTQ+ mathematician each day of June (pride month) on Twitter.
- Spectra Reception at the Joint Mathematics Meetings April 2022
Co-organizer.
- AMS-Sponsored Spectra LGBTQ+ Mathematicians Posters February 2022
Co-organizer. This poster series highlights LGBTQ+ mathematicians.

University of Delaware (Positions Held)

- Mathematics Department Graduate Committee September 2021–Current
Member
Responsibilities: communicating between the graduate students and faculty, ensuring every decision is inclusive of all graduate students, organizing meetings with prospective and incoming graduate students, and ensuring the voices and interests of the graduate student body were heard and accounted for at graduate committee meetings.
- Queer and Trans Graduate Student Union (QTGSU) June 2021–June 2022
Executive Board Member, Founding Member
Responsibilities: ensuring accessibility of all activities, assisting the treasurer, organizing community events, and upholding the values of the organization.
- Society for Industrial and Applied Mathematics (SIAM) Student Chapter July 2019–June 2021
Treasurer
Responsibilities: managing the student chapter finances, funding requests, and the end-of-year final report. Also helped coordinate general meetings and social events.
- Association for Women in Mathematics (AWM) Student Chapter September 2020–June 2021
Professional Development Chair
Responsibilities: organizing and coordinating professional development workshops, and helping form open discussion on articles about women in STEM.

University of Delaware (Ad Hoc)

- New Qualifying Exam System April 2022
As a member of the graduate committee, I helped draft a new qualifying exam system that went on to be passed by the faculty vote.
- QTGSU Bylaws Committee June 2021
Co-drafted the bylaws and organizational structure for QTGSU.
- QTGSU Accessibility Committee June 2021–June 2022
Co-drafted access guides and documents, as well as ensured all events were accessible.
- Graduate Student Mentor-Mentee Program September 2020–2022

Mentored two first-year graduate students, helping them adjust to graduate school. Provided monthly check-ins, and offering advice on coursework, balancing life and graduate school, and qualifying exams.

- UD SIAM Seminar Series September 2020–June 2021
Instigated and organized the UD SIAM Seminar Series inviting PhD students and post-docs from other universities to present their research.

Other

- Memberships Current
Society for Industrial and Applied Mathematicians (SIAM), Association for Women in Mathematics (AWM), American Mathematical Society (AMS), The Association for LGBTQ+ Mathematicians (Spectra), Out in STEM (oSTEM)
- Incoming Student Handbook May 2018
Instigated and created a student handbook for the Seattle University Mathematics Department's future incoming students. The intention was to give a student point-of-view of life at Seattle University as a mathematics major.

PANELS, WORKSHOPS, AND MINISYMPOSIA

Panels

- Panelist at the Virtual Joint Mathematics Meetings April 2022
Spectra Workshop: Identifying Best Practices Fostering Inclusion and Retention of LGBTQ Mathematicians. Topics of discussion: supporting transgender mathematicians in the work place (Keri Sather-Wagstaff), LGBTQ+ mathematicians balancing work choices with family (Ron Buckmire), best practices for recruitment of LGBTQ+ faculty (Amanda Folsom), and supporting LGBTQ+ graduate students (Joseph Nakao).
- Panelist at Society for Industrial and Applied Mathematics (SIAM) Annual Meeting July 2021
Minisymposium: Presentations by LGBTQ Mathematicians. Responsible for leading discussion about LGBTQ inclusivity in the applied mathematics community, as well as Spectra's current projects.
- People of Color Caucus October 2017
Invited by Dr. Rose Ernst (formerly) of the Political Science Department at Seattle University to facilitate a people of color caucus. Topics of discussion included: racism in academia, and living as a person of color in college.

Workshops and Minisymposia Organized

- SIAM AN22: LGBT Minisymposia (upcoming) July 2022
Co-organized two Spectra-sponsored minisymposia highlighting the research of LGBT applied mathematicians.
- Mathematica Workshop March 2021
Led a Mathematica workshop tailored for undergraduate students in the calculus sequence. Organized by the UD AWM Student Chapter.
- L^AT_EX Workshop October 2020
Led an introductory L^AT_EX workshop geared towards graduate students in both the mathematics and other departments. Organized by the UD AWM Student Chapter.

COMPUTER SKILLS

Proficient: MATLAB, Mathematica, L^AT_EX, Word, Excel, Powerpoint

Some experience: Fortran 90, Python, Julia
