This TA is very knowledgeable and knows the proper way to teach students in such a short amount of time that we have in discussion. He is good at giving problem examples that clear up any confusion in the course.

Joe is one of the smartest TA's that I have come across. He has exceptional understanding of the material, teaches it as well as he understands it, and is relatable and a pleasure to be around every time.

Extremely helpful

Extremely helpful, knowledgeable, organized, fair. Actually cares about helping, which relieves someone like me who has always had a hard time with math and is anxious about asking questions. Quizzes were extremely fair and I learned more in this discussion than actual lecture. The reason I got through this course. Best math instructor I have ever had.

Joseph is a great teacher and was very organized and easy to talk to

He was very helpful and well informed

Joseph was really helpful, a little intimidating but helpful.
